

## **Pay-Per-View**

Institutional customers have the option to purchase individual journal articles, conference proceedings papers, and eBook chapters, referred to as “pay-per-view,” to provide access to content not included in a site license. Full-text content can be accessed on The ASME Digital Collection at [asmedigitalcollection.asme.org](http://asmedigitalcollection.asme.org) for seven days after purchase.

To purchase, users simply click on the full text or PDF version of the content. If your institution does not have a site license covering that title or publication year, the user will be presented with the option to purchase the content at the bottom of the page. Note: The user will need to register as a user of asme.org.

If customer support is needed regarding a single article purchase, users can contact [asmedigitalcollection@asme.org](mailto:asmedigitalcollection@asme.org)
